

THESIS STATEMENTS...

- Why did you select this topic?
- What will you teach others.
- What are your opinions about this topic?
- What are you trying to prove?

TROPICAL RAIN FORESTS - Thesis Statement - Dharia 3J

I selected tropical rain forests because I want to know more about all the plants and the sounds of all the insects and the animals. I will teach others that we should not cut down anything in the tropical rain forests. I will also tell people that the atmosphere is opening. My opinion is that rain forests have all kinds of plants and animals that we have to protect. I am trying to prove that rain forests are different than dry forests because rain forests get rain every two minutes.

DINOSAURS - Thesis Statement - Colin 3J

I chose this topic because I can learn about the exciting past when I study all about dinosaurs. I will teach others about what killed the dinosaurs. Was there a comet that killed them or a volcano? I will also teach others about how they fought and about what they ate.

FOOTBALL - Thesis Statement - Dylan 3G

I selected this topic because the football field is the best place to let out your anger. Plus, when you tackle somebody, you don't get in any trouble. I will teach others the best way to play football. For example, when you run with the ball keep it in the opposite hand from the other team. In my opinion, football is a good running sport. I will prove to you that it can hurt when you get tackled.

SNAKES - Thesis Statement - Bryan 3W

I selected this topic because I like snakes and how the poison kills people. In my report I will teach people how snakes move fast and how they throw their poison. My opinion about this topic is going to turn out when I work on it.

TIGERS - Thesis Statement - Trey 3G

I chose tigers because they are strong. They could kill people, but sometimes they are nice. I will teach people facts about tigers, for example: the tiger is the largest cat in the world; tigers are easy to recognize with their coats of red, orange and dark stripes. The tiger is a powerful hunter. It has sharp teeth, strong jaws, and a muscular body.

THE EARTH - Thesis Statement - Ewart 3J

I selected this topic because I think the Earth is a good place to live. I will teach people not to pollute the Earth. In my opinion many people like the world. I'm trying to prove that the world needs to be fresh and clean.
